¶ Refer to city or national ZIP Code Directory for complete number for specific address.

Classified stations and branches are not symbolized in the State alphabetical listing (See symbol under main post office listing).

Contract stations and branches are not symbolized.

Standard abbreviations of the names of States are shown directly beneath the name of each State.

The figures 1, 2, and 3 following the names of post offices represent the class of office. Offices, excluding stations and branches, without number, are fourth class.

The number shown to the left of each city is the ZIP code for that city.

Individual directories for 207 large cities are available to local residents without charge. To determine the ZIP Code of an address, consult your city ZIP Code directory, your postmaster or the appropriate section of the National ZIP Code Directory. (This 1,816-page index to the ZIP Code of every address in the nation may be purchased from the Superintendent

of Documents, Government Printing Office, Washington, D.C. 20402. Price: \$7.00 per copy.)

Postal savings deposits can be made only at post offices, branches, and stations authorized to transact postal savings business, as indicated by the symbol (°) prefixed to name of office. Withdrawals must be made at the post office, branch, or station at which the depositor maintains his account.

All branches and stations pay money orders, register letters and parcels, and sell postage stamped paper. Lettered and named stations, in addition, may receive, deliver, and dispatch mail matter. Money orders are issued at all post offices, branches and stations except those indicated by an asterisk (*). At the larger military installations where postal units are formed to afford service to military personnel, and regular stations are not established, such units are designated for accounting purposes as money order units.

INSTRUCTIONS to Mailers on Use of Parcel Post Zone Keys

Each unit of area is numbered, and post offices located within the unit are assigned unit zone numbers which are listed opposite the names of the post offices. A zone key has been prepared for each unit of area showing in numerical order the zones in which all other units are located in relation thereto. (For example, Chicago, Ill., is located in Unit 2115, and mailers within that unit should request the zone key for such number.) The same zone key is used at all post offices located in any one unit of area. Branches and stations are located in the same county as that of

the main post office, except those indicated by a footnote.

A local parcel post zone key, with a list of parcel post rates, may be obtained *free of charge* from your local post office. Parcel post zone keys for other localities may be obtained from the Post Office Department Supply Center, 3070 "V" Street, NE., Washington, D.C. 20260. Request zone keys by the unit zone number.

To ascertain the parcel post zone of a particular post office, look in this list for the name of the post
