UNITED STATES POSTAL SERVICE

Washington, DC 20260

STATE LIST

Post Offices, Stations, and Branches

All post offices, named stations and named branches, including rural stations and branches, and community post offices, are listed in alphabetical sequence under the appropriate State name. Stations and branches are also indented under the parent post offices. Numbered and lettered contract stations and branches and numbered money order units are not included in this list.

The class of post offices is shown by the number 1, 2, 3 or 4 immediately following the county name.

Stations are subordinate postal units located within the corporate limits of the city or town where the parent post office is situated.

Branches are subordinate postal units not located within the corporate limits of the city or town where the parent post office is situated.

Stations and branches are established to meet specific postal needs and may provide all services given at the main post office or they may provide only limited services such as sale of stamps, acceptance of registered mail, and transaction of money order business. Classified stations and branches are staffed with career postal employees. Contract stations and branches are operated under a contractual agreement between the Postal Service and an individual contractor. Rural stations and branches are contract units which supplement rural delivery or star route box delivery service.

Entries for post offices show the ZIP Code (except for major post offices where reference to the National ZIP Code Directory is necessary to determine the exact ZIP Code for that street address), county name and class of office. Offices having city delivery service are indicated by the letter "C" following the class of office.

Only the first three numbers of the ZIP Code are shown for offices having more than one ZIP Code. It is necessary in these instances to refer to the National ZIP Code Directory, Publication 65, to determine the proper ZIP Code for a mailing address.

The following abbreviations and symbols are used throughout the State list:

- B—Branch (Indicates contract branch unless followed by an "x".)
- C—Offices having city delivery service.
- CPO—Community post office.
- G—Post offices located in Government buildings.
- RB—Rural branch.
- RS—Rural station.
- S—Station (Indicates contract station unless followed by an "x".)
- U—Money order unit.
- x—Classified unit.

The following post offices are listed twice in two

different States because their service extends across the State boundary:

- 71749 Junction City, Arkansas—Louisiana
- 73949 Texhoma, Oklahoma—Texas
- 75501 Texarkana, Arkansas—Texas
- 88021 Anthony, New Mexico—Texas

One office, Fishers Island, NY 06390, has a ZIP Code which is not within the numerical range of that State. The number is in the range of the New London, Connecticut sectional center, which is the mail supply.

The following branches are listed in two States, once indented under the post office to which attached and again in the State list where the branch is actually located:

- 02701 Acoaxet, MA; RB, Little Compton, RI
- 02891 Pawcatuck, CT; B Westerly, RI
